Short Description about Hr/Payroll/Employee Attendance - Manage whole company's task

By Team:
Adiyogi Technosoft (P) Ltd

Attendance Application

Attendance application is present in most of the companies. It is helpful in monitoring employee shifts, synchronizing and planning the workflow. It also helps to allocate resources. It also provides a quick report of the employees' daily tasks and also maintains the record of their several activities.

It also enhances the employee's overall personality. It keeps them accountable, productive and also boosts the profitability of the business.

Other than employees, this app comprises admin, Sub-admin-HR, Team Head. Admin can monitor employees' activity, responsible for assigning a reporting person to each team, and allows sub-admin to access features. In a similar manner, Sub admin-HR and Team lead deals with leave management, Leave type, and its status and can monitor those employees who are working under them.
