Short Description about visiting card

By Team:
Adiyogi Technosoft (P) Ltd

VisitECard: Online business visiting card builder software

A Digital visiting card is a card that contains all the essential information of yours and your company. Such types of digital designs can be shared online with a single click. With basic details like name, position, and contacts, you can enhance your card with interactive elements like links, portfolios, and many more.

In some or other ways these cards can affect your business by reflecting your identity in a digital form.

Digital Business cards, digital visiting cards, virtual business cards, and e-business cards, all are digital forms of business cards.

Basically, this platform comprises three kinds of users: - Admin, Franchisee, Client/Customer. The user's card can be editable by the admin. Admin has complete control over the Franchisee panel.

It is a dynamic website that provides modification facilities to the user. According to the requirement and needs of the user, changes can be made, this makes the system unique and also easy to use. The product can be added, edited. Different videos related to the product can be added. A QR scanner is also there.

Features & Benefits:

- ★ Easy Updation
